Prof Henry
W. C.

My dear Sir,

Permit me
to introduce my friend
Capt. Noble of the
Royal Engineers, a man
of high standing in his
profession and of
scientific tastes.

Capt Noble
wrote Washington with
the view of informing
himself on matters

Military and Scientific
and will be grateful
for any aid you
may give them to
that end.

With kind regards
to yourself and sincere
good wishes for the
welfare of the Smithsonian
and of the country which
sustains that and so
many other good in-
stitutions,

Yours faithfully
G. Dawson

The writer of this note is one
of the most prominent geologists
of Canada. J. H.
