

SEMINAIRE 114 No 78

If you would kindly
mention this to
the Curator of your
Museum, some benefit
to science might
possibly result.

Sincerely yours
W. Dawson

Oct. 8. 1865.

Mr. Prof Brunet

My dear Sir,

When in Ox-
ford, England a few
weeks ago, Prof Rolleston
was kind enough to
show me the large
and interesting collection
of human skulls in
the New Museum of
the University. I showed

that the collector is
 remarkably deficient
 in Eastern American
 skulls and Prof. R.
 expressed a strong desire
 I have this want
 supplied. It seems
 to me that from the
 large collection in Lowell
 a few duplicates might
 be spared to Prof. R.,
 and I have no doubt
 that Prof. R. would

* say Huxon, Rogers & Henshaw

gladly give his large
 stock of duplicates
 fine valuable specimens
 in exchange. I was
 gone in the course
 of the winter to
 put up a parcel
 for Prof. R., and would
 gladly enclose anything
 you might send; or
 you might send direct
 addressing Prof. Rolloston
New Museum, Acad.
