J. Dawson, Principal McGill College
Montreal

My dear Sir

Your letter received & I have telegraphed acceptance of your terms. I will leave here Thursday evening & arrive at Buckingham &c. The best way I think would be for you to go to Templeton village & there take a buggy & drive to the lines described in the enclosed pamphlet & certificate of P.S. Chapman. M. La Bourgie lives at the place & will show you over the whole property & afford you every information but if no accident happens I will also meet you at the lines at Labasse's house, which on enquiring you will easily find. The enclosed pamphlet is rather mutilated but I think you can easily make it out. I also enclose M. Chapman's report. If you will take the trouble to call on T.R. Johnson, estate agent of Montreal Little St James Street, (he was a part owner & still has a large interest) he will give you all necessary information about the property but I do not wish you to let him know for whom you ask the information. If you can leave on Thursday so as to spend all Friday on the property all the better - in which case please telegraph or if there is time write me. However whether I am present or not you can go the property as pointed out by La Bourgie & make your report.

Yours truly
Thos. H. Ince

P.S. La Bourgie cannot speak a word of English so you will have to speak French to him.
