Hon Doct Dawson
Presdt McGill College
Montreal Dear Sir

I had the pleasure
of listening to your most instructive lecture
of the Primæval Flora, before the American
institute in this City, and desire to thank you
for what I there learned -

I had ^{also} the pleasure some two years since, to make
the acquaintance in this City, of a W Dawson, an
Member of Parliament, who, from the resemblance
and similarity in tone of voice, I take to be a
brother of yours - He was kind enough to send
me from Montreal a copy of a Survey and
report on British Columbia, made ~~by~~ ^{by}
a brother of his, which copy and report some
one has borrowed or taken from my rooms.

Edward Learned.
President.

My object in addressing you this note, is to say
I have not the address of either the Ex-member
or the Engineer brother, & if you can put me
in the way of reaching either of them, or
of procuring a copy of the Report, I shall
be greatly obliged —

Have the kindness to excuse this familiarity
from a stranger, but well know old Dawson on
the Ex-member. I may say my well — and
when you took the stand at Steerway Hall on
the evening of your lecture, I said to a friend
at my side — "that certainly is a brother of my
friend Dawson" — I almost felt that I had known you.
I am very respectfully
your obedient servant

C. A. Trowbridge
