

School of Mines, Columbia College,

CORNER 49TH STREET & 4TH AVENUE,

New York, March 1st 1869

Prof A. W. Lawson

My Dear Sir

I have just returned
to New York after a months absence
and find your letter and the
box you are kind enough to
send. With thanks to me

The Plants & Corals were both
very welcome. The Corals especially
valuable to me. I will at once
set about making you up
a return box, which you shall
have with a longer letter the
moment you desire it at an
early day. — Yours Very Truly
J. Newberry
