

Harvey Hill Copper Mines,
Leeds, Megantic, C. E.,

Superintendent's Office 12th April 1869

My Dear W. Dawson.

I was sorry that I was absent from Quebec during your recent visit. When I was down last week Mr Douglas told me that he had asked you about the Catamount, and that you told him that you had not moved in the matter, as you were under the impression that I had been only in joke — It is quite true that when in Montreal I proposed an exchange, procurably in manner, but really seriously in purpose, but it must have escaped your memory, that after my return to Quebec, I wrote you on the subject, as it is in your reply under date 18th June, you say; "I shall bring the case of the Cascapou before the Council of the Natl Society, when it meets, but I fear your terms are rather hard".

This I meant to our Council, & the recollection of it, led to Mr Douglas introducing the subject.

I have told him that I would again write you and will feel obliged if you will bring the matter under the notice of the Council as you intended.

I hope your family are all well. It will be no news to write that we have had a most unusual quantity of snow, here as elsewhere, during the past winter, during the past week we have had a few days' indication of Spring which I hope will be early.

I have lately had a letter from our friend Prof. Thomas Pictou friends are very much disgusted with his course.

Mr W. P. Frazer I am sorry to say was not then expected to survive many hours; he will be very much missed by the community as well as his family to which I deeply sympathize. My daughter Rose is at present on a visit to Mrs James Primrose. She writes me that Primrose this in the enjoyment of excellent health and tho' always very cheerful has all the tastes of old age, is more domestic than ever. The noise of the children at "the cottage" was too much for him, so he removed to the house which he had built for his employe Archie, — beside Bill Hendersons — and there Mr Primrose and he, like Daisy & Joan live as happily as the day is long.

With kindest regards to Mr. Dawson and
all the children

I remain very faithfully

Wm. J. Henderson

James Will Pope & Son
Lancaster, Pa.

Philadelphia, Office 12th April 1849

My dear Sir

I was very glad to hear about your success during your recent visit. When you were there I was very anxious to see you and to hear about the business, but I was unable to do so. I had not much time to devote to you, as you were under the impression that I had been out in fact. The question that arises in connection with your business is whether you will be able to carry it on in Lancaster, Pa. I have no objection to your doing so, but I should like to see you before the Council of the University, which meets next year, to discuss the matter.

The University of Pennsylvania is interested in the subject, and I should like to see you before the Council of the University, which meets next year, to discuss the matter.

I have no objection to your doing so, but I should like to see you before the Council of the University, which meets next year, to discuss the matter.

I have no objection to your doing so, but I should like to see you before the Council of the University, which meets next year, to discuss the matter.

I have no objection to your doing so, but I should like to see you before the Council of the University, which meets next year, to discuss the matter.

I have no objection to your doing so, but I should like to see you before the Council of the University, which meets next year, to discuss the matter.

Wm. G. Fisher
President
