

Ministry of Public Instruction, Province of Quebec,

ASSISTANT SECRETARY'S OFFICE,

Quebec, April 26th 1869.

My dear Sir

As regards the copies of
the Education Act of which
you made mention I have
to say that the text of the
Act is being printed in full
in the ~~next~~ forthcoming num-
ber of the Journal, which I regret
to say is delayed up to now
owing to the great inconvenience
of having it printed in Montreal
instead of here where we could
get at the printers at once in-
stead of depending on the post &
telegraph by which the bringing
out of the publication is rendered
a good deal more costly —
as soon as the Journal is out which

we hope will be in a few days
your friend the Superintendent
will of course receive his copy
or copies -

While in the act of writing this
I have learned that 100 copies
(in English) of that bill are
ordered to be printed in the
usual bill form - Mr Jolicœur the
Assist^t Sec^y of the Secy.'s office
gave the order -

When these are finished I will
take care to send you some
copies - I suppose this latter form
is what you require most. -

I was away last week from my office
laid up by illness or you would
have heard from me sooner -

Yours truly
H. Miles
