My dear Sir

Excuse my
long delay in answering
your letter. I have
been very much occupied
and quite unable to look
over my collections with
the view of sending you
any duplicates; but I
hope to be able to do so
in the course of the
summer. In the mean
time I send a parcel
of seal specimens which
may be of some little

deems, and by the offer
for my best wishes
for the success of your
very useful society.

Truly yours
W. Dawson

Estlin P. Stokes &

On second thoughts
I shall keep the pum-
phlets till next week,
in hope of sending out
them by express a collection
of Post = plewene
shells of Canada, & some
other fossils. If you can
send me in exchange
any Post = plewene from
Maine, I shall be very
much obliged.

I am now working
at Traminitia & shall send
you some species when I can
get them arranged. I am

preparing to set up a complete
list of those now in my
collection from the brief of Louis
Vene & Portz Florence —
about 30 species in all
