

PORTLAND SOCIETY OF NATURAL HISTORY.

PORTLAND, ME., June 11, 1869.

Prof. J. W. Dawson,

Dear Sir, I express to you to night a box containing glacial shells & foraminiferous clay. I am sorry that when Mr Fuller came to look over his duplicates that we could give you none but common species. Two things however; first, they may serve you as duplicates to send to some of your correspondents, & (2), we will do better by & by. I can let you have as much more of the clay as you want.

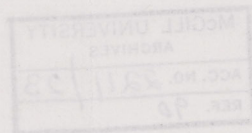

Now a little business on my own account - If I subscribe personally now for the Canadian Naturalist, what will the back volumes cost me - a full set. I do not know but that they are out of my reach, as persons of my profession generally know pretty well the proper translation of res augustae domi; but it does no harm to ask the question.

If, again, I should subscribe
to any English periodical (Scientific)
thro' Dawson Bros, could I obtain
it mailed to me any more cheap-
ly than to subscribe thro' our
U. S. book dealers - Could you send
me a list of the periodicals which
D. Bros have, with prices. Please
state whether gold or U. S. Currency.

Hope that I am
not troubling you too much -

I am

Sincerely Yrs.
C. E. Bolles
