Principal Dawson

Dear Sir

A number of young men as a Youngmen's Christian Association are trying to improve the moral tone of the people here by a series of lectures - I write informally to ask if you could favour us with an address any time during the winter - To give you

an idea of what they have  
to contend against I send  
you a tract circulated here  
in which coarse infidelity is prominent  
at the end you will find your  
own name. rather strange I  
think If you could give them  
a lecture I believe it would  
be productive of good.

Hoping to receive a favourable  
answer. I am yours truly

Wm. Burns
