

GEOLOGICAL SOCIETY, SOMERSET HOUSE.

21 April 1870<sup>W.C.</sup>

My dear Sir

I was sorry to find  
on my return to the  
Society's rooms yesterday  
that you had called in  
my absence, & I need  
not say that it will  
give me much pleasure  
to see you when you  
can make it convenient

to call again. -

There will be no difficulty  
in arranging your paper  
as you wish; at least I  
think not. - When your  
former paper was before  
the Council, they decided  
to wait before publishing  
it until the fuller  
communication &  
exhibition of specimens  
which you promised  
could be forthcoming -  
so there will only be

a short abstract of your  
paper in the next journal. —  
Your other paper was also  
deferred until your  
arrival, in case you  
might bring the specimen  
with you. — It would be  
as well for you to let me  
have your paper by  
Monday or Tuesday  
such as then I can  
put it on my list  
to endeavour to get it  
placed for the first Meeting.

in May. —

Dallas

July  
Apr 10

Will you be at the next  
meeting? We have a  
paper by Mr. Hind & another  
by Mr. Honeyman. —

Believe me

Yours very truly

J. S. Dallas.
