

Great Western Hotel
Paddington 20 April 1870

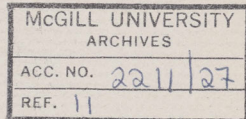

My dear Dr. Dawson

I have your note of this morning
I will get the parcel you speak of next
time I visit Serpentine Street.

I do not feel myself quite well
enough to be at the Geological Society's
meeting to-morrow evening, but I
shall endeavour to see you at another
time. You shall have the use of
a mounted copy of the map
for the occasion of your paper
before the Royal Society. I shall
call & leave it with you probably
on Saturday, at any rate you
may depend upon having it in time

I am happy to say that I
have a promise from my father
to contribute £1000 towards
the establishment of a Professorship
of Geology in your College.

Yours truly
W. E. Logan
