

Street 2<sup>1/2</sup> (No 27) 1837  
Somerset

Respected Friend

There are some  
half dozen specimens of Sau-  
rians - only one Plesiosaurus which  
is not cleaned or put together  
but could be finished in a short  
time - I think the best plan  
would be to come down next  
week - I shall be a good deal  
occupied the following week  
and afterwards expect to be in  
London for a week or 10 days

Mr. C. Sturidge of the Jermyan  
Street Museum would give very  
full particulars of what might be  
found here - they have obtained  
some specimens of Saurians for  
that museum from here -

The best way down here will

be via the South Western  
Via Salisbury & Templecombe  
to Glastonbury Station which is  
but 1 1/2 Miles from us Ladies  
know by what train that comes  
and we will have the meet at  
the Station

Hoping to have the pleasure  
of seeing thee here soon

I am respectfully

James Clark
