ACC. NO. 2211/29
REF. 67

McGill Col
Montreal
Dec 2, 1890

My dear Sir,

My son George in a
letter to me that you have
mentioned to him that
the Council of the School,
they have granted the
prize of two 800 plates,
for my paper, and that
you proposed sending
them to me to be
contacted. I think I
said to you in London that
I would be prepared to
pay any balance rather
than diminish the illu-
strations; and I shall
be glad to adhere to
that offer; more especially
as I wish to do the thing

on the True ferns of
the genus *Adiantum* I
have got some very
plum specimens at
the G. I. sent some
more of the new fern

I have ordered the
Clerodendron of cuts of
ferns paper and
shall send them
by mail or soon as
ready,
