My dear Sir,

I beg to acknowledge receipt of your note of Nov. 4; and of Box of Specimens announced therein; and beg to thank you very much for the liberal contribution of so fine a series of Gaspé plants from Middle & Lower Devonian. These are all mounted, and placed in the public cases, suitably labelled; and I hope shortly to bring them before our School Geological Society.

The various parcels contained in the Box were carefully & promptly forwarded; and doubtless many of them have already been acknowledged to yourself direct; as all have been to me with the exception only of the packet to Dr. Hal- four & that to Prof. Dawkins. Doubtless these also have been safely received, and I will delay no longer to let you know the result of the convey- ment. — The parcel from Dr. Carpenter was acknow-

copy of Mr. Robert Thomas of Bristol  
very interesting in some cases. It has been  
in reference to a dissertation from his wife, and  
she has been some time before it arrived.

I will shortly send you a  
liberal amount of the latter specimens;  
I should think but scarce for you.
