THE LEISURE HOUR.

56, PATERNOSTER ROW, E. C.

London, Jan 17 1871

My dear Sir

You will be pleased
to hear that your papers are
much appreciated. It is
a high merit to attract
popular attention without
lowering scientific tone.
Faraday did it in his
lectures, and you are doing
it far more than he did in
your writings.

At our next Committee

meety I will get a cheque
for £50 "on account."
So on as we determine
whether the paper will be
published by us or left
for you to publish, the
formal payment for the
series will be arranged.
Either way I shall see
that the payment is
at the highest rate
that our periodical
gives. Mr Patti's
is on our publishing

Committee, as I have
the advantage of his
advice in such matters.

I send the copies
(January & February) of
your articles. I hope
you will do what you
can to make the
Lisbon House better
known. If you tell me
the names of 3 or 4
of the chief Canadian
papers, I would send

numbers, or extracts
call attention to
your articles.

Yours truly

James McCaulay
