

McGill College
Montreal
July 6, 1891

My dear Sir,

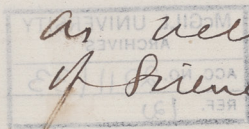

I wrote hastily on Friday last, having received the proof only a few hours before the closing of the English mails, and being desirous not to detain it. I perceive that I have overlooked one point in your letter which it may be well to notice. Refer to the idea of publishing my articles in book-form. I may say that in case of this being entertained by the Committee I shall be very glad to consent to any terms they may think

19
The present
want of good feeling
between
men and Christians.

18
The
Lecture a slip from
the
Munster workshop with a note
our Right Hon. meeting here. Some
knew it to Mr Davis, when
name of the
I should
said to the last part, in
what April I met a little
one of my friends, Mr Callaghan, who is
of good Christian men of Science
W. Dawson

Reasonable; and also that
it will amalgamate
with the present articles
the substance of my
work on the first Chapter
of Genesis, giving it a
more popular form.
The two works together
formed from a very
complete Manual,
more valuable than any
now extant, on the
whole question of the
relations of geology to
Holy Scripture; and I
think under the auspices
of your Society and
in the present state of
men's minds, it might
command a wide cir-
culation, and thus
with very great benefit
to the cause of Christ,
as well as to the progress
of Science, about to be
