

Toronto

July 25<sup>th</sup> 1871

Dear Sir,

The Ontario Teachers' Association will meet early in August of this year, could you make it convenient to come at that time and give a lecture or address to the Teachers, the public being at the same admitted - on some subject connected with the Natural Sciences, for the purpose of directing the minds of teachers to the importance of paying more attention to the Natural Sciences in our schools - especially

in High Schools and Other  
valuable results which might  
be reaped educationally from  
the mode of acquiring them  
Professor Chapman of University  
College, is during the <sup>summer</sup> coming  
pay a visit to Europe, or else we  
would have asked him to  
attend to the claims of the above  
mentioned subjects in our  
Schools; I hope therefore you  
will give this request your  
favourable attention and let  
me hear from you shortly -

Respectfully

Yours &c

Archibald McMurtry
