

William

Etoune March 5th 1871.

Prof. J. W. Dawson;

Dear Sir:

I shall, towards the last of this month, again change my residence to Nova Scotia and my P.O. address will be as before "Joggin Mines, Cumberland Nova Scotia". As I have not received the fossils, or specimens I sent you, I presume you have not yet received the jawbone London. If they are not sent so as to reach me here as soon as the 20th of this month, I would like to have you send them to "William Monell Gardiner Maine" who will take care of them for me. I shall be happy to hear from you at any

time during the summer at
your home, if you have
anything to communicate,

Yours very truly

W. A. Morrell
