My dear Sir,

I felt a little nervous about the Desjardins paper; but find it nearly as correct as the Mus. I forgot to give the following errors:-

Col. 1 line 3 from bottom
read "Sand-" for "Caust,"

Col 4 - 4 from bottom
read "Oceanic" for "Walrus"

Col 7 - 8 from top -
read Zaphrentis for Zaphrentis

Col 12 - 6 from top -
read "pile-worts" for pile-worts

Same column, two places
read Psilophyton for Psilophyton

None of these are of very

copy to
St Macaulay
Notes a Summ

Letters moment, ^{prop} and
on the whole the
printing is very correct;

No 1 on the New
Zinc was sent by
last mail, and I
trust will reach
you safe.

Sincerely yours
