

GEOLOGICAL SURVEY OF CANADA

(Museum and Office, 76 S.^e Gabriel Street) MONTREAL.

15 June 1871

My dear Sir

The plates of the plant appear to be very nicely executed. I find that of the last palaeontological publication of the Survey; (Vol. 1. Palaeozoic Fossils.) there were printed 750. Copies and there are still a large number on hand. I think an Edition of 800 will be sufficient. including the 200 Copies you propose taking yourself.

I leave next week, via San Francisco, for British Columbia. Mr. Richardson goes with me. Sir William will return about the 30.th or early in July, and will be
Authorized

to ask for me during my absence, & surely he has long
kindly consented to undertake.

Very truly yours

Wm. A. D. Murray

The Geo. Henry of Canada & the plate is quite legal. How
should you want you any prospect? he ought to have
done so according to his wish.
