

Wampstead 10 July
1871

My dear Sir

At the usual meeting
of the Polytechnic Assocn
last evening Prof Morris
was in the Chair, the Chairman
took occasion to refer
to your paper in Lbt
as meriting the attention
of all + exhibiting

Palmer
July 11/71

admirable general
views, some new &
striking. The members
spoke to same effect -
The numbers were placed
on the table & ~~the~~ must
be approved. They will be
noticed in the next May
this ~~part~~ perhaps not by
a Paldyvic man &
therefore not thoroughly

McGILL UNIVERSITY ARCHIVES
ACC. NO. 2211/35
REF. 31

Examined.

In the Lib. May 9
The present work is a
general paper of Hull's
on the drift which you
may find useful if you
have not completed this.

It is so difficult to get
the drift into sequence
in a philosophically -
satisfactory manner

What I think you
will be glad of this paper,
lock powdered as it is on
Oswatin

Yours faithfully

J. M. Patton

D. Dawson.
