Will you favour
us with a lecture

to be the Introductory

REF. 32	

I think I have a
partial promise from
you, & I write thus
early in the hope
that I shall be first
in the field.

I say Introductory
Lecture - because
the first of the
course for another

Fear — the subject
of course, would be
left to yourself.

As I write, I look
out from my window
on a part of the
line of Railroad
which is to connect
us with Montreal-
Sorel & Boston.

The men are grading
& preparing for the Rails.
But what present des-
olation for future Good!

I am more and more
in love with this beau-
tiful part of the Country.

Mr. Dunkan is here for
a fortnight.

With kindest regards
believe me to be
Sincerely Yours,
Wm. Hancock
