REF.	4

Copy to BPe

M. G. College.
Montreal.

Sept 19/71

My dear Sir,

A Harrington and I
have just completed the
writing out of our Report,
and it is now in process
of being copied out. It is
now still to make some
pages of text, one to
be added to it; but so
soon as we can get these
through a copy will be
sent to you.

It will probably when
printed amount to say
two pages of the size of the
Canadian Reports a page
of which I enclose. I trust
you will also find the report
that this will cost

WILLIAM LLOYD GIBBS
1852

here done upon pamphlet
form about \$2. per
page for 1000 copies.
Therefore for this way
therefore be estimated
at \$80 or \$100. —

I would illustrate the Report
with a map and several
one of a page — two page
size plates of fossils and
say 5 cuts of sections and
the drawings of what I
would prepare but the
lithography we would
have to be paid for
I would cut

By three plates 1000 copies \$10 5
@ \$350
5 cuts @ \$5

25

The prints and plates
will all be well done
upon English work.
At this rate of printing
then the Report will cost
me \$230.— and I
will wish for I wish
be whether you wish
it so done or whether
you would prefer to have
the prints done in MS
I shall in any case say
a word after this has been
so that you shall see
I have the work done
now or I could have
the plates done here
the prints in the

Glauco.

I would of course
send the ~~same~~ fresh
proof of every part
of her of the ~~same~~
and General for the
with copies of the
and copy of the
thus the ~~whole~~

Whether the ~~members~~
the report will open and
by letter of no help
but I think it would
be well to make it a
part of the ~~same~~ the
members will make it
more intelligible

Yours
G. M.
