

M. C. Gill College.
Montreal.

Sept. 20/71

My dear Mrs. Weston.

In answer to
your kind invitation in
behalf of the Ladies
Association I beg to
say that that I
shall be happy to
give a course of lectures
commencing Oct 5th
on the subject indic-
ated in the following
page, which will

I think from the
best kind of active
directing course to
the study of geology.

I have state some
hope that at least
a few lectures may
be secured from the
solution Smith; but I
shall be prepared
to give the course
if so if required.

Truly yours
W. D. Wood

A course of Twenty Lectures on
Useful and Ornamental
Stones by W Dawson, LL.D. F.R.S.

The course will include
— Silicious Stones, Calcareous
Stones, ^{Native} Metals and Metallic
Stones, Carbonaceous Stones;
all of which will be
treated with reference to
their Nature, Mode of
Occurrence, Uses and
bearing on the study
of geology.
