My dear Dr. Dawson,

I received your
kind relation to the
heat at Squirrel point
and will endeavour
procure it, and forward
it by post. I understood
from my brother that
he had written you
desiring that you would

print the Report in
material according
to your own ideas
if it might be
issued. I have just
read your report with
my great pleasure
I do not think that
any one could make
more out of the
biology than you
of this kind

have given us. I shall
be pleased to see it
nearly printed.

I send you a Memoir
relating to the Oysters

which will enable you
to count, a paragraph
on page 64 - "The shells in these
beds &c" -

Can you give me any
information now which I

can learn the distinctive
characteristics of the Osage
breeds?

Yours very truly

W. W. P. Obe

ps I do not forget
the system you shall
them I put by my
penman

W. W. P.
