THE LEISURE HOUR.

56, PATERNOSTER ROW, E. C.

London, Nov 8 1871

My dear Sir

Our Volume for  
1871 is completed, and  
you will see the whole  
of your series of papers  
before long. Mr. Pattison  
who is your best friend  
in the Committee, and my  
ablest adviser, is at  
present in Spain, and

I think it well to await  
his return before proposing  
to our Copyright Committee  
about republication as  
a volume. Till then  
also the completion of the  
business matter of the  
contributions had better  
stand.

But this need not delay  
my writing to urge you to  
carry out the plan I  
have ventured to announce.

is our program; a few  
papers on more recent  
<sup>and physico-geographical (racial)</sup>  
geological history, coming  
down to Primitive Man,  
and the questions of  
development or creation  
of species.

I cannot judge of the  
suitableness of the  
Sunday at Home articles  
without seeing them or a  
specimen of them. You  
know pretty well what we

require, and the title  
"Nation as Represented  
in the Bible." seems an  
admirable subject to  
be handled by you,  
for students and for  
thoughtful readers.

Yours truly  
James McCaulay
