

30 College St.  
New Haven, Dec. 25, 1871.

My dear Sir:-

I am very glad that our correspondence resulted in securing your lecture on the Primeval Flora for our course. On the receipt of your letter of the 9th of November, I placed the matter in the hands of the Club, and they have, I presume, consulted with you as to the necessary arrangements to be made for the lecture.

I write now to invite you

to make my house your home  
during your stay in our city.  
We live quite near the Hall,  
and shall be glad to accomo-  
date our household affairs to  
your convenience. I shall be  
at home all the week, so  
that, if when you arrive, you  
direct the hackman to carry  
you to 30 College St, we will  
try to welcome you and to  
make you comfortable.

You have of course, seen  
a prospectus of the lectures.  
They seem to take very well  
with our citizens and the  
success of the course seems  
already assured.

Very truly yours  
George F. Barker.

Principal J. W. Dawson.

Prof Bush  
Depp
