Dear Sir

Press of duty in connection with Association work, has prevented me from publishing my small work upon McGill College as early as I had intended. I now purpose (D.V.) having it completed during the coming month and availing myself of your kind offer. I enclose some proof of the first few pages, asking that you will kindly glance over the same and feel perfectly free to make any alterations you may think best. I have experienced greater trouble than I had anticipated in procuring definite information respecting some points of interest and indeed I can not as yet

fill up the details for the years
1863 to 1869 but hope to gain informa-
tion from the College Library. The
Medical Faculty I have secured
through the kindness of Dr. Campbell.

I notice that the Chapman Medal
is omitted from the list given in the Cal-
endar for 1871-72. The "Anne Hudson"
Medal is also noted as "founded in 1854"
which I believe is incorrect 1864 being the
date. I would feel obliged if you
could inform me as to the reason
why the "Chapman" is omitted. The
other I presume is a typographical error.

Apologizing for thus troubling you

I am

Yours respectfully
Alfred Ham
