J. M. Taylor

Montreal February 6. 1872

My dear Sir -

You sometime ago spoke
of investing an amount of
money in January.
The January Snow Bank
shares are dearer than
at the time of our con-
versation. So I presume
you would not think of
going into them. Now
is there anything else
just now particularly
worthy of consideration.
But in case you may wish
to move your money from
where it is going only
a small interest, I
mention that a few
weeks ago I took up
\$63,000 of an issue
of \$100,000 of Bonds

Can capital Bank on L.R.D.
No. 111 of office

of the Mutual Investment
Association running 10 years
paying $6\frac{1}{2}$ per cent interest
\$25,000 of which went to the
Liverpool & London Fire Co
\$20,000 to the Redpath
Estate
\$2,000 to the Dow Estate
& other Trusts & Estates &c
at par & $\frac{1}{2}$ % over.

The Bank of Montreal has
offered me par for \$10,000
for its annuity fund, which
has been declined. These
facts I mention - primarily
to show you the estimation
in which they are held &
that they pay better than
anything else at the present
time. Movable.

They are in \$1,000 \$500 \$100
Bonds with coupons, and any
amount, but over \$8,000 you
could have, if you desire, done
at par & $\frac{1}{2}$ % Yours faithfully
M. W. Taylor
