

S. Wilcox.

Canada East.

Feb 7. 1873

My dear Sir

The seed of the "Lumino"⁴
which you sent me was
sown in my garden on
the 13th April, it grew well and
strong and promised an
abundant crop, but unfortunately
it did not ripen well, and
the frost coming very early

The promise was not
fulfilled. The seed
I have saved I am keeping
for another trial this year
when I hope I may be more
fortunate

Yours very truly,
Samuel
