March 11<sup>th</sup> / 72

My dear Sir;

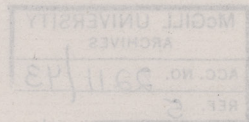

I am now very nearly finished with my Manual of Palaeontology, & hope to send off the M.S. very shortly. I should, therefore, feel very glad if your leisure would allow you to let me have the notice of the Skid-daw plants which you were good enough to promise me. I should also be much obliged if you would at the same time tell me what is your opinion of the so-called Pothocites Grantoni of the Scotch

Coal. means. Is it really  
an Arrideous plant?

Many thanks for your inform-  
ation about my paper. I shall  
be glad to see proofs. I have  
already written to Meurs.  
Blackwood, telling them to  
ask Meurs. Oliver & Boyd for  
the electrotypes, so that is all  
right. With kind regards,  
yours very sincerely
