

\* yet Cecil testifies that the child was feeling only  
2 days ago, & is not sure that it is over yet; said  
child running about the house. They have however  
been disinfecting. What says M<sup>r</sup> D.?

My dear Sir

Have you any objection the  
Boys returning to school tomorrow?  
Sunday? We are all quite well, and  
I do not think there is any danger to  
be apprehended. Dr. Keady thinks all  
danger was over a week ago.\*

Yours truly

Yours truly

Wm. C. Keady

Portland Place

Sunday 7<sup>th</sup> April.

REF. 27	

I have examined the little locality with all care; can scarcely  
make out the mantle line, but it seems to have a large bend, à la Mya,  
instead of the very small one of Sphenia. The shape is Mya!

I have added to the MS West coast localities, & crossed off  
certain quotations of self, which are not wanted after the statement  
in introduction; & I do not consider myself an authority on  
East Coast, nor wish to be so quoted.
