

M^cGill College,
Montreal.

Apr 12/72

My dear Mr Harrington,

As you inform
me that you are about
to leave for Ottawa
on the subject of your
appointment as chemist
on the Geological Survey,
I beg to say that I
consider your connection
with our new school
of Mining, Agronomy and
Mining Engineering, as

expense to its success
and most valuable
also to the interests
of the Survey - that
the time required by
us will not interfere
with your work there
- and that the con-
nected connection must
on the whole be
beneficial to the Survey.
I would therefore say

that if the Government
should be so unreason-
able as to make this
an objection to your
appointment, I must
ask you to retain your
connection with the
College, and shall
on my part pledge
myself to do all
in my power to
compensate you for

MCGILL UNIVERSITY ARCHIVES	
ACC. NO. 2211	43
REF. 34	

To Harwich
April 11

The loss of the salary
appointment, by increasing
your involvements in our
nations with the college.

I have however no
objection that you should
promise to resign your
place in the college
within two years after
appointment on the
salary should this be
desired.

Truly yours
W. Dawson
