My dear Sir

I have conferred with
the officials of the A.S.S.
& the resolution come to
is ~~to~~ not to publish
your papers in a
collected form but to
allow you to do so & I
therefore suggested the matter
to Hodder & Co and

wish their note in order
that you may communicate
with them.

Your papers have been
much appreciated here &
have done good on both
sides i.e. Scientific &
Theological. There is nothing
better, or equal to them
in the former work, &
nothing at all like them
in the latter. I think

The book which you
indicate will do very
well indeed. As it has
had business relations
in the State it ~~will~~ will
sell there also.

We have nothing special
to report. Professor Phillips
has written a nice
book on the Thomas Valley
but has declined the

Republican
Luna

Centennial post-office

quarters. We are having
rather a dull post; begin

Yours faithfully
