

Copy to Pella
all Science
Hans

Holder & Sloughter
May 13, 1876

Received of you 2 books & please
for hands

On my part I shall think
since the articles could send you
a printed copy with all necessary
directions to see or for use of

I shall also ask the A. G. Hall
to give me a volume of the
articles - the thing of protection as
applied to our men in case of
prejudice - I see the and
what I think all would need to
the use of them

The A. G. H. has values of
to see the results what might be
an eye for us to see
then to report every sum. This
monthly will I think

With truly
to appear to each I agree to
500 copies of each - With it will be
to let the clear all part in papers
and except for compensation is given
state for what the instrument - I feel
to let 50 up to double

McGill College.
Montreal.
