June 27 1872

Dear Dr Dawson:

I thank you much for your communication on Devonian & Lower Carboniferous plants. It is too late for our July no., but will appear in our next. Your paper on Lozium, or rather the extracts from it, were in type for our June no.; but our articles run to an unexpected length, so that, although our number was much enlarged beyond our published limits, I did not succeed in getting for it a place. It will go, without

put into our July no., now all
in type. -

Very truly yours
James W. Dana.

I thank you for a promise
of a copy of your paper
on the Beebeys - the Beebey
theory does ^{not} seem to have many
advocates now.
