

77 George Street.

Edinburgh 9 July 1872

My Dear Sir

I am still without the box of
Spathic ore, which is a most
serious & unfortunate circumstance,
but not so serious as the absence
of definite information regarding
the quantity of ore on the property.
The quality I have had satisfactorily
proved.

I presumed that the object of your
visit was to prove the extent of
the deposits, & I prepared my
friends for such information, & had
it been received I would have been
ready to day to launch a Company.

I am remaining here for no
other purpose than to attend to
this affair, hoping each day will
bring me what I require. I expected
that up to a certain point you
would have stated that the
"vein a lot No. extends for

"a distance of - is - feet
" wide, & has been pured to a depth
" of - but is no doubt of much
" greater depth" 0. 7. 1. & there
would follow an estimate of
so many millions of tons of
each kind. Of course I can
calculate approximately the
extent of the great iron ore bed,
but this is not sufficient. I must
state an authority, a certain
quantity of the richer ores,
with a speculation or approximate
estimate of what might lie beyond.

Remember the season is
getting late for financial
business, is in fact nearly
over, but yet I believe I
could carry out this business if
I get all I have asked for by
Cable a receipt. If I am
troublesome please remember that

I have every mind & satisfy, when who knows
all about them, & who are not likely to erect
so thin in milk until they know they have one
inches till slightly open in each & all of
the lots mentioned in your Memorandum.

I expect you yesterday
" depth heard it definitely deposit in the month

My sincerely yours

Dr. Wm. Brewster

Could you come here if I telephone for you in
by cable please.

It is too late to send you the
+ picture, if my opinion is
again on the 20th inst.

Of course if possible see a
that I can make the property
will give me time to pay for

Dr. Wm. Brewster F.R.S.

& it was if the
20th inst. should
pay before then,
what is the property in
interest?

Reuter
