

PRENTICE MOAT & CO.
MONTREAL.

Montreal.

~~Montreal~~
2 Sep 1872

Dear Dr Dawson

I leave tomorrow
evening for Pictou & shall
be glad to see you at
your convenience today.

I shall be at my office
all day, & can visit you
at your house in the
afternoon, if you are not
to be in the city. I trust
you will be able to let
me have all the necessary papers
& maps. Mr. Robertson is
to meet me at Richmond
junction (G. T. R.) at 1.35
am. Wednesday.

With reference to Mrs. I

fear that (acting under Mr
Dickson's instructions who desires
to cheapen the property)
he will value it according to
what he is in sight above
& below, & that unless you,
put your & Sir Williams
remarks (which I hope you
will incorporate in your
report) as strongly as your
conscience may, our
labour is in danger of
being lost.

Yours faithfully

Dwight Pentecost

Can you see, out of
his actual & practical
knowledge, make me a report
in his capacity of Assistant
Engineer on the Iron Deposits
of Pictou?
