

Recd
W. J. M.

Dear Dr Dawson

I wish you would
write me a line today
saying that you have,
after visiting the mines
with Mr Logan, you
are satisfied, made a
Report thereon, & that
you are able to corroborate
& confirm Dr. T. S. Hunt's
Report. This I wish to
forward today before I
leave for Glasgow.

If the letter describing
the position of the Picta affinis
is nearly accurate as you can

make it, please give it
to the Beaver.

Yours sincerely
D. W. Peattie
