

M. Gill College,
Montreal.

Sept 13/72

My dear Sir,

In reply to
your favour of the 12th
inst I beg to say that
my examination of the
Phototype given in Bourgois
had reference to other
lots than those mentioned
in your letter and
was made in the
interest of H. Thomas
Esq of this city and
gentlemen associated

with him, I could
not therefore give
any certificate with
reference to the properties
you mention, ^{without going on the} ground, ^{what at}
^{this season my only duties would prevent,}
I may state how-
ever that should
you wish the lots
in question examined
and reported on, by
Sam Wm S. M. Dawson
Associate of the School

of mines, might on his
return from New
Britain, give you his
personal services
in the matter, though
I presume rather for
say \$200 ^{per week} ^{for fuel & charges}
a fee than for shares
in the company. ^x

Truly yours
W. Dawson

+ In case of his undertaking the
work I would be happy to revise
his notes and add any cor-
rections testimony I could
W.D.
