Pictou 7th Oct 1872.

My dear Sir

I rec. yours of 27th Ult.
& Enclosure. Robertson, Prentice's
Enquireur paid a hasty visit to the
Simonite - Webster - "the specular, the
latter he looked at by candle light
only. George will give you an acct.
of his survey of the localities.

Prentice called on us
in the same hasty way & actually did
nothing, saying he must leave in
an hour, which he did, he said he
had no time, but expressed his be-
-lief that he would succeed but
could not wait for any further
agreement. He took my father very
cordially by the hand & said he
would place himself in his hands
and Dr. Dawson's & all would be right.

To save repetition see our letter to
McKay of this date & you should both
give Prentice distinct notice that
no further time than that named
in the memo signed by yourself
& McKay & Prentice at Montreal
Dr. Dawson

And that we Key West
 checks receipts of the Schedule
 Supplement at present, and
 makes further parts &
 copy of telegraph the
 agreement in return to
 the member.
