

Rutgers College,

New Brunswick, N. J., Dec. 18. 1872

Dr. J. W. Dawson,

Princ. McGill College,

Dear Sir,

I beg to introduce to you, my friend and associate, Prof. J. C. Smock. He visits Montreal to learn more about Laurentian and Huronian rocks, than we have yet observed in New Jersey.

Any help you may be able to give him, will be highly valued by him and by myself, and we shall be glad to reciprocate, should we have the privilege.

Yours respectfully

Geo. H. Cook

State Geologist.

Prof Cook
