

Nice. (France)

Rue St. Etienne, No. 20.

March 15 - 1873.

My dear Sir,

Aware of the deep interest you take in palaeontological science and of the labour research which you have devoted to it, I have taken upon myself to transmit to you (in case you should not have already received it) a brochure photographically illustrated, recently published by Mons. Rivière of Menton.

It is descriptive of the human skeleton discovered by him in a cavern near that place, - but on the Italian side of the frontier - which he ascribes (with what accuracy I do not venture to judge) to the palaeolithic period.

Hoping that the work may reach you safely, I remain, Dear Sir,

Yours faithfully

Henry de la Beche

To
Professor Dawson. F.R.S. &c

Manchester.
