

Conservative Club,
S. W.

24 Sept 1873

My Dear Sir

I have your pamphlet copies of
your paper read at the A. C.
for the A. of S.

In my last I note that
the work done at Fraser Saddle
should ^{to be} be chiefly in sinking
to pure depth, but I look
right of the importance of giving
its direction & continuity if we
are to make the most of our
second night. Please do
whatever is best for the interest
of the Property without reference

to any suggestions. You
know but what should be done.

W. Potter has no doubt
visited you.

Yours faithfully
W. Abner
