Easton. Penn. Oct. 23/73

My Dear Lesley

I had looked forward
to meeting you as one of the pleasures
of our meeting here, only to be disab-
pointed. I must hasten back to Bos-
ton tomorrow without getting to
Phila. I hope however that
I may see you at home in a
few ^{days} weeks - if I carry out my
plan of going down with a friend
to look at a Coal-dow track

[Faint, mostly illegible handwriting, likely bleed-through from the reverse side of the page.]

in the Bowling & Wyoming Co.
 West Virginia. I learn from a
 "Summary Report" published by
 the Shenandoah Valley R.R. Co. from
 your pen somewhat of the coal
 in that vicinity. but Mr. J. W.
 Gardner thinks you have pub-
 lished a more detailed Report. If
 so and you can put me in the
 way of getting it or any other
 source of information on the
 coal in the Counties in question

I shall feel very greatly obliged
 to you. Address me H. James
Hotel Bowen, Mass. If I
 am to visit the region it will
 be probably in a week or ten days
 from this.

I want to see you and have a
 great geological talk. We must
 see you at Portsmouth.

Always yours

J. Stearns Hunt

Prof. J. P. Lesley -
