

Montreal Nov 20/73

Principal Dawson

My dear Sir

Owing to the illness
of two of the principal officers of
my Sabbath School I have been
too much exhausted at the close
to attend the Bible Class for the
past two Sabbaths.

I now return Mr Hulls letter

The matter is one of great importance
but his proposal will involve
very considerable additional
labor upon us, and I do not
undertake anything beyond my
present responsibilities and duties,
nor can I for some time give money
to any new enterprise, and it

seems to me untill we have
some reliable information as to
the number of Protestant blind
there is in the Province of Quebec
it would be premature to act.
And it strikes me as strange
that Mr. Hall should be willing
to leave the important work in
the start and come here for
this small effort. If the School
Commissioners see no objection
to your suggestion of having a class
in one of the Schools it seems to
me the easiest and wisest way
of making a beginning.

I remain
Your truly
J. David Custon

Clavus
