McGill College,
Montreal.

Dec 3/43

My dear Sir,

I have recently been looking up, on behalf of my son Mr. S. M. Dawson, who is foreclosed on the Western Boundary Com^{rs} information as to the papers of the Separate Lectures of that Univ. I have Hayden's Reports, and the part past of June

Polynesiology but
the second part does
not seem to be in
the Smithsonian Vol.
May I ask if you
will publish
anything in detail
on the Lustrous
shells of the Upper
Muri, and if
so where it can
be procured.

If you are still
curious at these

things, would be well
to send you dupli-
cates of my son's
shells for determination
& comparison.

Truly yours
J. D. Sear
