the man or woman

My own view of land in  
the country is  
valuable & the  
value of the  
land is  
the  
value of the  
land is  
the  
value of the  
land is

Then you have the right  
to take up all these areas  
before May 20; but that  
there is a difference in the  
value there on 104, 107  
47, 48 & 101 are the  
best you have on these  
areas up to of land. Then  
on 49, 45 & 102 are  
followed by other rights  
and therefore may be of  
less value

My own impression is  
that it would be well  
to take them up as  
the lot \$50 is small  
compared with the value  
of the land area  
if there is a here that on 47  
is the most important  
next - then that on 104 & 107 and  
that on 101 is very to fine man  
for exchange

on the subject with a  
trace what <sup>will show</sup>  
for the areas <sup>and I am best judgment</sup> suggested  
I have sent a duplicate  
of the memo and trace  
to Mr. Primmer in case  
you should contact him  
and for you to the

I would remark that
