

Dec: 31<sup>st</sup> 1913.

Dear Sir;

We learn with much sorrow, from your letter of the 29<sup>th</sup> Inst., that our much esteemed friend and correspondent Dr. Smallwood has departed this life. Though not intimately acquainted with the events of his life or with his social qualities we held him in high esteem as a zealous laborer in the cause of science whose loss will be felt by all who are interested in the subject of meteorology.

Of late years Dr. Smallwood was in correspondence with the

meteorological department of the  
Government and I have ac-  
cordingly referred his letter to  
the Chief of the Signal Service,  
General A. J. Meyer.

The deceased must have  
left a large collection of val-  
uable meteorological records  
which are eminently worthy  
of being reduced and discussed  
for publication, and I trust that  
some effort will be made to  
induce your Government to make  
an appropriation for this desirable work.

J. W. Dawson, S. S. D.  
Montreal, Canada

Very truly yours  
Wm. Henry
